📍 Mumbai , Maharashtra

PROFESSIONAL SUMMARY

With two years of experience in software development, I have built strong skills in programming, database design, and research, particularly with PHP, MySQL, JavaScript, jQuery, AJAX, HTML, and CSS. I have successfully completed projects that deliver dynamic web applications and enhance user experiences. I am eager to apply my expertise and project experience to drive innovation and support organizational goals in a software development role.

PROFICIENCIES

- **Programming Skills :** Python, C++, C, Java, SQL
- **Web-Development Skills:** PHP, Java script, jQuery, AJAX, HTML, CSS, Python
- **Platform and OS:** Unix, Linux, Windows, Mac
- **Others:** Jira, Confluence, Cpanel, GIT

PROFESSIONAL EXPERIENCE

Quixilinx LLP

Jul 2023- Jan 2025

Member of Founding Team

- Collaborated with diverse institutes to provide industry-specific training, enhancing skill development and knowledge sharing across sectors.
- Attended multiple cross-country B2B meetings, fostering partnerships and expanding business networks.
- Delivered a range of software development services, including ERP systems, website design, e-development, and mobile app design and development, supporting clients in modernizing their digital infrastructure and improving operational efficiency.

Image Online Pvt. Ltd

June 2021 - April 2022

Software Developer

- Collaborated on in-house projects with cross-functional teams, engaging stakeholders and formulating strategies to ensure smooth execution
- Conducted thorough research, gathered data, and analyzed trends to support project planning and decision-making.
- Designed and implemented short work programs, optimizing processes and resource utilization, while continuously monitoring effectiveness and making data-driven improvements.

LIVE PROJECTS

COPO calculation web-app

Developed for K. J. Somaiya Institute of Technology

Technologies used - PHP, MySQL, Java script, jQuery, AJAX, HTML, CSS

- Developed an application for teachers to input Course Outcome targets, student marks, and relevant details to automatically calculate Course Outcome values. The application is actively deployed and in use, streamlining the process for course outcome assessments.
